

KIMWOOD HOG 36X36

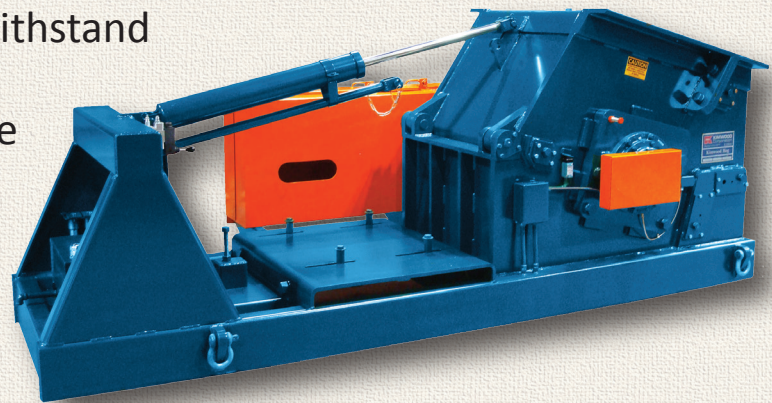

Waste Wood Processor

Operate your plant at optimum levels with our patented **Kimwood Hog** which will process your waste wood into a marketable product.

The shaft and bearings are oversized to withstand the abuse that hogs are subjected to. Specially designed shear pins keep damage to a minimum when an “uncrushable” object gets into the hog. Their controlled break allows fast pin replacement and minimizes downtime.

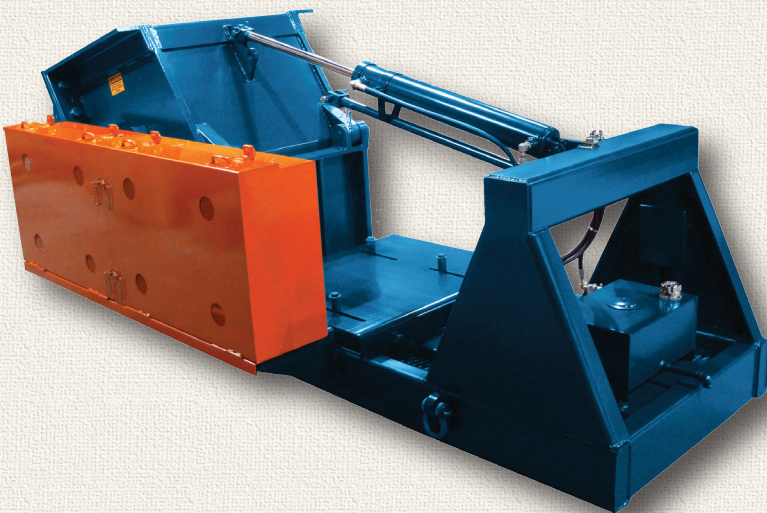

**Special Price
\$109,950**

Specifications:

- Rotor Dia. & Length - 36"
- Rotor weight - 6,040 (weights are approx. and Motor(s) weight is not included)
- Machine weight - 18,700
- TPH - 30 (TPH is based on 23 LBS/FT3 Material processed to 4" minus)
- HP - 200-250 (HP is a reference only. Consult Kimwood for individual applications)
- RPM - 900
- Shaft - 6" ϕ
- Bearing Dia. - 5 15/16"

Only 1 Unit available
